U. S. Arry General Hospital. ?
Fairfax Seminary, Va., Nov. 9, 1863. FAIRFAX SEMINARY, Va., Nov. 9, 1863. §

DRAB JOURNAL:—Your welcome visits, for a few weeks past, remind me of a promise I made to keep your editor advised of what transpired and occurred in this anundane portion of the "ascred soil;" and although my letter hear date at present from a general hospital, another may be dated and written "in the field," where but a few hours before host met host in deadly conflict, and after having helped bring in the wounded and dying, adding to handage, dress wounds, or close eyes in grim death, a few moments occur wherein to think of friends and loved ones, and these are slways improved by every soldier, if he be fortunate enough to have a scrap of paper and pencil, for he knows not at what moment the relaxation from deadly strife may be terminated by an order to fill laversack with five days rations and cartridge-box with what moment the relaxation from deadly strife may be terminated by an order to fill haversack with five days rations and cartridge-box with forty rounds of amunition;" and I opine few soldiers are unacquainted with the messaing of such an order, especially if they have been fortunate enough to have been "in the front" a twelve month or so!

Hospital life presents such a daily monotony of the self-same routine, that I could add but little to your knowledge of how the poor soldier fares after he is admitted, to the time when he may have become cured and again fit to resume

The sketetons of three Indians have been dug up in Hamilton street, New Haven.

Snow fell to the depth of from six to ten inches throughout Northern Iowa, Wisconsin and Minnesota on the 13th inst.

The Boston Post says the opposition have one consolation for next year—they have great room for gain.

In some parts of Germany it is contrary to law for mothers to sleep with their infants until they are two years old, because so many of the latter are suffocated by the practice.

chusetts insurance Commission, last January,—among which were the leading and largest Companies of the country,—it was shown that this company had done its business since its organization, at a less raths of expense to its receipts, than any of the 20, thereby commending it to all seeking Life Insurance.

It takes Nutes for half the premium when it amounts to \$50, and its dividends, which were 30 per cent the last year, (and have averaged nearly that amount since its organization,) are applied to the payments of the Notes. The Large Capital of the Company, its Recommy in Management; its accommodating terms, with its promptness in paying Losses, are so many reasons why persons should insure their lives in it.
